## Ocean City Music Pier- Concrete Deck Repairs Ocean City, NJ

OWNER: **City of Ocean City**

ARCHITECT: **Gibson Associates, PA**

### PROJECT DESCRIPTION

The Ocean City, New Jersey Music Pier project was approximately 14,000 sq. ft. of concrete repair. Demolition of this elevated concrete slab was completed over the beach and Atlantic Ocean.

Quinn Construction, Inc. provided all labor, material and equipment to complete the following Scope of Work:

- ◆ Concrete deck surface @ 13, 400 sq.ft.
- ◆ Structural thru-deck repair @ 2,700 sq.ft.
  - ◆ Beam & girder repair @ 200 l.f.
  - ◆ Floor drain 8 unit
- ◆ Tile flooring surface @ 350 sq. ft.
- ◆ Final protective coating @ 560 sq. ft.

Project was completed in 2011

### CHALLENGES

Quinn was hired to repair damaged and unsound concrete to a structure with high pedestrian activity.

### SOLUTIONS

Remove the top layer of the deck and replace with new concrete. Shoot new elevations to allow for better drainage. Add a layer of protective coating to perimeter.
