

# QUINN CONSTRUCTION, INC.®

## PRESS RELEASE

### The National Shrine of Our Lady of Czestochowa

**STRUCTURAL ENGINEER:** Joseph B. Callaghan, Inc. (JBCI), Philadelphia, PA.

The Shrine of Our Lady of Czestochowa was established in Doylestown, PA in 1955. Since then, it has seen visits from Vatican Priests, Archbishops, and even Presidents from both Poland and the United States.

The facility has seen many beautiful improvements during its lifetime, but has also seen its share of damage from the harsh northeast winters.

JBCI Engineering provided the historic restoration design. Quinn Construction, Inc. was chosen to provide select demolition, removal and replacement of stone and concrete components.

**Stay tuned for another update as spring gets into full swing!**

**Services provided include:**

- Concrete stair restoration
- Concrete slab leveling repair
- Top-side concrete repair
- Concrete crack repair
- Stucco restoration
- Engraved stone restoration
- Sealant / Caulk services
- Drain replacement
- Railing restoration

**QUINN CAN DO IT ALL !**
